

# UGANDA, AFRICA

February 2024

*"He raises the poor out of the dust, And lifts the needy out of the ash heap, That He may seat him with princes- With the princes of His people, He grants the barren woman a home like a joyful mother of children."*

*Psalms 113:7*

## Thank You!

I'm forever grateful for His Grace, protection and for the great support, love and encouragement of all my friends and partners. Together we are advancing the kingdom of God! Your seeds of love are changing lives. Thank you for your faithful giving. TALOF is stronger than ever by the Grace of God and because of you my dear partners!

*Lourdes*

## Christmas Party 2023

Let us give God the Glory for the Amazing Children's Christmas Party that took place on 01/13/24. There were 400 children in attendance that came with great expectations of what the Lord was going to do. We shared the love of God through bible quizzes, stories, games, music, a Christmas drama and the grand finale, a home cooked meal. The teachers and staff in Uganda, were blessed in the name of the Lord, that he enabled them to give out gifts to each and every child who attended. It was an amazing experience that not only the school children, but many children from the surrounding villages came to celebrate together with us. The name of God was lifted on high as about 20 children accepted the Lord as their personal savior by giving their lives to him. Since the days after the event the parents have been reaching out and praising the blessings and joy that their children experienced during the event, many lives were touched and transformed. The Administrators at the school send their love and a huge thank you to all the dear partners for the love and support that you send to Uganda to help the needy. May the Blessings of our Lord Jesus be upon you!

*"Whoever received one little child like this in My name receives Me." Matt 18:5*

## Upper Level Construction

The construction continues on the 3rd and 4th levels. We are currently working on the foundation for the P7 classroom and the walls on the P6 classroom. Rainy season in Uganda starts in March and runs through May. This year has been a hard year and it has started raining early and has caused some delay's in the construction. We need to build fast so that we are not repairing work we previously completed. We are looking to raise more funds to continue the construction without any pauses.

### Road Construction

We needed to repair the road leading to the school due to all the rain damage.

### On Going Project

We continue to support the people surrounding our school with our monthly program: Feed the Hungry. We are looking to stock up on our supplies as our inventory is running low. There has been a huge need to give even more food to the people. The rain has washed away a lot of the crops and food near by. Please continue to support this program by writing "Feed the Hungry" on the memo line of your love offering. The widows and children thank you.

### Street Lights

There has been a strong presence of bandits in the surrounding areas that attacks dark non illuminated locations. The 4th Level of the school is extremely dark. We are in need of installing street lights on this level. We are looking to raise \$2,500 to complete this, so that we can keep our teachers safe at night.
